PROFESSIONAL SUMMARY

Computer Science Engineering graduate skilled in MERN stack, React.js, Node.js, and Python. Experienced in developing responsive web applications, integrating APIs, and managing databases. Quick learner with strong problem-solving skills, eager to contribute to a dynamic development team.

TECHNICAL SKILLS

- **Programming Languages :** JavaScript , C++ , HTML , CSS , PYTHON
- **Frontend :** React.js , Next.js , Tailwind CSS , Bootstrap
- **Backend :** Node.js, Express.js, RESTful API
- **Databases :** MongoDB , MYSQL
- **Version Control :** Git , Github

EXPERIENCE

- **Full Stack Developer Trainee**

Camino Infotech Pvt Ltd

Kochi, Kerala

June 2025 - Present

- Proficient in MERN stack (MongoDB, Express.js, React.js, Node.js) for developing dynamic and responsive web applications.
- Proficient in API integration, database management, and modern UI frameworks like Tailwind CSS and Bootstrap.
- Strong foundation in problem-solving, version control (Git/GitHub), and collaborative project development.

PROJECTS

- **Hotstar Clone (React) :**

Jul 2025

- Built a Dynamic Streaming app using React js with REST API integration for content delivery.
- Implemented responsive UI with material-UI and optimized performance Through lazy loading and code splitting.

- **Weather App (React):**

Jun 2025

- Created a user-friendly weather app using react.js REST API for real time weather data display
- Implemented search functionality and dynamic UI updates to display real-time weather conditions for different locations

- **Classification of EEG Signals: [Mini Project]**

Jan 2024-May 2024

- Created a machine learning model to classify different stages of seizure using Random Forest and K Means clustering in Python.
- Preprocessed EEG data to extract relevant features for classification

- **Automated Exam Paper Evaluation: [Main Project]**

Aug 2024-Apr 2025

- Developed an AI-powered system to automate handwritten exam paper evaluation using OCR and NLP techniques for semantic answer assessment.
- Implemented handwriting recognition using DTrOCR and integrated GPT-based models for accurate, context-aware grading and feedback generation.

EDUCATION

- **Sreepathy Institute Of Management And Technology (SIMAT)**

Oct 2021 – May 2025

Bachelor of Technology in Computer Science And Engineering

- GPA: 7/10

- **Khss Thottara**

Jun 2019 – Mar 2021

Higher Secondary Education in Computer Science Stream

- Percentage: 94

PUBLICATIONS

- **Classification of EEG Signals**

Jan 2025

- Published in the proceedings of CEMC2024, organized by IDES and Grenze Scientific Society.
- Authored and presented a paper on EEG signal processing and machine learning applications in biomedical research.
